I'm creating a simple android application, I want to change the application icon color, as the Android Application Home page shown below: I checked on the android developer documentation, I can't find any information on how to change the color. Thanks A: For the Google app, they use a line of icons. They could also draw a line of icons in whatever color they please. The choice of color is definitely not based upon your app's color. You can't choose any color
