Many thanks to the feedback we received from our successful Kickstarter campaign and the great amount of interest received on our Facebook page, we are finally ready to release the Alliance War Chronicle on Steam. If you want to find out more about what happened after the events in the Alliance War Chronicle, you may read the 'next chapter'. On October 25, we will release the updated version of the Alliance War Chronicle to Steam, which will include further optimization and features. To celebrate this event, we decided to take a short break from developing the game, and focus on content support. The most important thing was to add some content to the game. We received many requests to create a level up system for the Alliance War Chronicle, and we decided to make the most of the tools we have today to create the fastest level up system possible. However, we would like to remind you that all the progression in the game is not based on experience. You will still be able to learn new spells and abilities, and take advantage of new items. 1. Introduction of the game (1) Introduction. Today, we are holding a press conference for the final release of the closed beta of the game. This is the game that has been in development for two years. I would like to express my sincere gratitude to all of you who have helped us by being a beta tester. We're also very pleased that the game can now be enjoyed by even more users. I am very excited about the recent Nintendo Switch launch, and am going to let you all into the Closed Beta that is being held for the Nintendo Switch, PS4, and Xbox One versions. We're also delighted to share with you the news that the Elden Ring is currently undergoing a major revamp, and that the new Fantasy Action RPG will be called the Elden Ring. And now, for the first time in the history of Sword Art Online, I would like to introduce the stars of the game who are going to guide you on your journey in the Worlds Between: [T/N: He misspelled Lisbeth's name] Optic White [Naruto voice] Hm? What is it, Lisbeth? For some reason, the body of a white owl became intermingled with the body of Lisbeth! As the Council's leader, she is trying to establish a new kind of peace. [T/N: He misspelled Lisbeth's name. These are any reference to the Anime "Voice of a Conscience". He call her Lisbeth, but it's not really that. This could be referencing something like the Tokusatsu series "The Owl of Oz", where the witch's name is also Lisbeth.] Optic White Lisbeth, that's a terrible name! A type of wild white owl is called a Harpi, but calling it Lisbeth sounds like it was nicknamed after someone who'd lost her voice. [T/N: Again, he misspelled Lisbeth's name. Lisbeth's is Anndei's Japanese name.] Optic White Optic, what are you doing! Get out of my way. Optic White Lisbeth, can you hear me? I'm talking to you! Optic White Lisbeth, I know that you are very distant and lost, but don't you think that's something that has to change? Optic White I am the

What's new:

See you in the true lands between!!

I missed this last year. It will now be a part of the game. A post from Nexon regarding *Palladion*:

"We are happy to announce that the relaunch of Palladion is planned to start this September. This exciting role-playing game is an epic saga that will take players to the world of Garos, thousands of years into the future, and casts you into the role of one of the last of the Garos army heroes. Players will follow the story of several characters that begin their journey as common humans and are launched into the most critical and critical events of their lives. In order to survive in this world, they must leave their past behind and create new destinies and take a strong stance against the evil group that has emerged. To protect their homeland, they will plunge into the forest of Garos and fight the enemy, leader by leader, as a last hope for their destroyed world."

It's looking pretty solid. I'm looking forward to it. Will probably get it when I start the game (I'm likely to keep gaming through the summer or QA as I'll be mostly idle) but I look forward to trying it out for myself if I'm not sick into it. Good to get a look at this game.

OVERLORD MMORPG V2.1 FIXED

**My original MMO patch, MMOG, was out for this game as an update. That post is pretty old (I think I was one of the few to report a problem), and one of the OMM2 devs came up with a fix for me. **

Enormous numbers of game species are threatened by climate change according to a new study that, to our knowledge, is the first to evaluate a historical trend in global biodiversity for over 1,000 years. Although past studies have demonstrated the harm faced by bird and mammal species from population declines, data regarding the sensitivity of fish, amphibians, and reptiles to climate warming is more sparse. Yet these groups are also especially threatened by climate change, and they may be of particular interest regarding mitigation strategies. In a study entitled "Climate change and the status of 3,231 multispecies orders," a group of ecologists examined the populations of mammals, birds, fish, reptiles and amphibians in 9,760 climate change scenarios. They found that nearly a quarter (about 23%) of all species analyzed would be affected by climate change, and 2.6 million species would be lost. Furthermore, 23% of all all species were not currently stable. The study is timely because a new report from the Intergovernmental Panel on Climate Change (IPCC) just released warned that by 2030 the rate of warming will be greater than what has occurred in the last 65 years. This, they said, makes it impossible for business-as-usual to prevent a worst-case climate scenario. Globally the change will have the greatest impact on the tropical and subtropical regions of the
