About the HyperMotion Technology There have been various motion capture technologies in the last 50 years, starting with the birth of the Kinect. But EA Sports needed to look to the future to achieve a real breakthrough. The technology used in FIFA 22 is called “HyperMotion Technology,” and it enables a completely new, explosive, action-packed playing experience. Embedded deep in the engine of FIFA 22, this motion capture data from real-life players is a data-rich resource, like no other seen before. The technology is embedded in three main pillars that connect players, ball physics and the atmosphere. The pillars are: Technology Data Player models There are three new data streams in FIFA 22: Player motion capture data: integrated into players and ball physics Player models: fast-rendering models based on the 3rd-party cloud-based player likeness data, but featuring enhanced and detailed facial and body proportions Ball physics: more accurate and detailed physics of the playing field, allowing for more tactical variety in the design of the pitch EA SPORTS has created bespoke, unique player models, in collaboration with companies such as Eleven Sports, Nike, P

EA SPORTS FIFA recognizes that winning is a team effort. It harnesses the full power of the real-world game engine to let players engage in epic club matches and compete against the world's best. FIFA also features the industry-defining gameplay technology FIFA Studio, a groundbreaking Creation

Engine for game developers, and the award-winning Frostbite engine for game creators. With FIFA 22, a deeper approach to artificial intelligence is taken to bring even more authentic challenges to the pitch. Referees now use more human-like decision-making and FIFA 22 is the first game in franchise history to focus on creating a cohesive online experience across both player and non-player interactions. FIFA is the world's most popular, authentic, and comprehensive soccer franchise, winning more than 500 awards and delivering the most realistic football experience available. Teams now react with more emotion. There are more plays, more routines, and more celebrations. New camera angles enhance the viewer's connection to the game, while a specialized Spectator Cam allows you to watch the action from a different perspective. Quick Shots FIFA 22 delivers an all-new brand of soccer, with a new way to score. Free kicks and long-distance shots will soar, while headers will reign supreme. New seasons mean new strategies, and new rule changes change the way the game is played. More Tactical Options FIFA 22 introduces the Dynamic Tactics Engine, giving you deeper control over your approach to each game. Using the game-changing Delegate Assist, you can use a formation that suits your individual style while giving your players the tools they need to execute your game plan. New Moves Players can now use the new Grapple Maneuver to score from unexpected angles. Runners can utilize the Sprint Maneuver to take on defenders off the dribble, while new Slide Tackle animations give players a variety of options to avoid players and dodge the ball at the right time. Unprecedented Control FIFA 22 introduces a revolutionary Control App, which allows players to make precise decisions during each game and on the fly. You can now set-up offensive plays using the new Patrol Zone. You can even use the new Customise Player tool to change your opponent's movement. The most immersive, authentic, and comprehensive soccer experience is powered by the FIFA Studio and Frostbite. Experience more intuitive ball control with the new Player Control, then dominate matches using the new Game Intelligence engine.

Rated 5 out of 5 by ChloeTidwell17 from Love this game its so good!! I have always liked playing FIFA game and so i love this game so much. Its amazing. It would be nice to be able to unlock everything and unlock all the stadiums in the game this would be amazing. Date published: 2018-08-05 Rated 5 out of 5 by Samimi80 from Amazing game!!! I have been playing FIFA ever since it was on PS2 and I have always thought of FIFA as being the best game for me as it has been my favorite football game so far. I have never been disappointed with it and I was excited to get this FIFA game so that I can continue to play it on my console. I got this and instantly I fell in love with it!! It looks amazing and in my opinion its amazing that you can create your own stadium and create your own team. Its a really good game!! Date published: 2018-07-21 Rated 5 out of 5 by KatyLO from Football is fun with all the latest updates! FIFA 20 is a good game and I am happy to play it. It is good that EA makes updates because everything keeps changing and it would be boring if the same game was always updated. The graphics were better than the previous version and I think it is a good game to play. I really like it Date published: 2018-07-14 Rated

What's new:

- **FIFA 22 introduces “HyperMotion Technology,” which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.**
- **First-person view (new camera type). Packed with power, new camera type also opens new levels of creativity for players to connect with the game - and challenge their creativity with unseen sporting moments, never before experienced in a football game.**
- **Team of the Week - the first time globally that FIFA has brought together all of the best players to create Team of the Week. Each week, the best 11 players in the game are selected by FIFA’s Team of the Year, featuring four forwards, four midfielders and three defenders.**
- **New AI system. Features a new challenge to match human intelligence and continues to push and evolve AI methodology. Allows for increased levels of realism, faster and reactive AI, and deeper strategic play by AI teams.**
- **Player Retraining - players now retain their historical attributes after every game, meaning you’ll get the best out of them every time. This also means that for the first time, FIFA will retroactively recognise players from transfers between editions of the game and enable them to use their attributes right from the first game without having to retrain.**
- **Career Progression. Career progression tracking has been perfected. All players get assigned a Personal Rating score based on their current skill set which will improve as they play. It will act as an indicator for the game to give a more realistic impression of the level of player improvement that the player will enjoy.**
- **New Stage Player Ratings - the Skillshot and Acceleration ratings are now included in the new 614 AMR sprint rating, which counts towards the new global “Prediction” Rating. The lower the number is, the more accurate the player’s**

overall feel will be, especially for dribbling, passing, technical abilities, improvisation and shooting.

- **The Journeyman Player, used across**
