It appears as if there's a rising demand in multimedia devices, a trend also known as convergence, as there are all kinds of gadgets these days that are made just for media streaming, like the Roku streaming player. A smart TV is no exception, as it comes with many streaming features, but how good is the picture quality these devices provide? Is it even able to achieve that in an actual living room environment? The answer is yes, and this is made evident by today's video, available now for download, so it's well worth checking out. OnePlus 3T and OnePlus 3T Review Two phones from the same brand, OnePlus 3T and OnePlus 3T McLaren are introduced today, which you can take a closer look at above in the following video. Just a few days ago, the company held the OnePlus 3T review event at its London campus, so the events might have something to do with the introduction of the phones. Either way, these are pretty solid smartphones, with numerous upgraded features, including the ones mentioned above, but also the new Qualcomm Snapdragon 835 processor and the all-new Dash Charge fast charging feature. The OnePlus 3T McLaren also offers some exclusive colors, such as Soft Gold and Soft Pink, but you can also choose from a number of other options. The phone is available for purchase from March 27. After Google pulled support for the Nexus 6, it could be that the company has another major update for the Nexus 6 this year, and the Nexus 6P seems to be ready to benefit from it. Pixel 2 XL Leaks Ahead of Possible Google Launch A number of new Pixel 2 XL Leaks has appeared on the Internet ahead of the next week's launch of Google's flagship smartphone, and it seems like it's going to be much like the original model. Here are the leaked specs: The Google Pixel 2 XL will come with a 6.0-inch AMOLED display with 1080x1920 pixels. However, there will be two sizes available: one will be 534.4 mm x 305.8 mm, while the other one will be 542.6 mm x 314.0 mm. The metal body has an aluminum unibody which is slimmer and lighter than the original Pixel. Also, the fingerprint sensor will be positioned on the back of the phone and will use an ultrasonic sensor for scanning. On the imaging side, Google has managed to replicate the dual 3a67dffeec
