Vcard Vcf To Csv Converter 70 30 Vcard Vcf To Csv Converter 70 30The KTM team has unveiled the new look of the RC16 at Jerez. Managed by the Red Bull KTM works team, the RC16 will be on a debut ride on the track in the upcoming European MotoGP Championship. The motorcycle will be ridden by Valerio Piva. “To debut the RC16 on the track at Jerez is a great opportunity to show our riders the potential of the new bike, as well as our partnership with Red Bull Racing. This is the first time that the RC16 is presented in the Jerez circuit, which is a special place in motorcycle racing history. We are happy to be on the starting grid with all our past world championship titles on the wall,” said KTM Motorsport Director Michael Hartl. He added, “We have been working hard to create the perfect motorcycle for our riders. The new RC16 features an innovative chassis that is ideal for our highly talented riders. We have a strong technology partnership with Red Bull Racing, which will play a key role in the development of our new bike. We know Valerio Piva can already count on our support and our engineers will take advantage of this test to finalise the final design. We can now start to develop the RC16 and make it race ready. We look forward to a great season ahead.” PIVA: "I am really happy to have the opportunity to debut the RC16 for the first time on a track like Jerez. The new bike is really competitive and I'm looking forward to show its pace and comfort on the tarmac. I'm happy that I'm on a team that's working really hard to improve the bike and I can't wait to get on the track and start developing the new RC16.” 2017 will see the return of the world championship to the Spanish circuit for the first time since 2011. 2017 KTM RC16: Engine: Liquid-cooled, 90 degree V-Twin engine • Configurable between a 1,240 cc 90 degree V-Twin and a 1,185 cc 90 degree V-Twin • Developed using KTM’s advanced technology platform, derived from the RC16R • Maximum power: 180 hp / 92 kW (125 hp / 85 kW with EC
